

EMAY INTERNATIONAL ENGINEERING and CONSULTANCY Inc.

EMAY International Engineering and Consultancy Inc., established in 1980, is one of the leading engineering and technical consultancy companies in Turkey.

EMAY has earned a rightful name in the engineering and consultancy arena by developing respectful, reliable, ethical, deep-scaled and long-term relationships with its employers, partners, experienced and dynamic employees and sub-contractors.

EMAY, with reference to its signature in numerous important projects both in Turkey and international platform and with its extensive knowledge and expertise, has adopted the policy to give priority to the satisfaction of its employers and clients, to continuously search for the best with its progressive employees by closely following developments in technology, to constantly develop its intellectual capital and increase its competitiveness and to improve sustainably by providing economic / cost - effective, state-of-the-art, safe, aesthetic, environmentally-conscious, sustainable, innovative and effective (considering the end users) solutions in performing services to the highest quality, on time and within budget in the undertaken projects.

While possessing the world's leading engineering software, **EMAY** at the same time utilizes software of its own product. **EMAY** gains its power from the reliance placed by its employers and from its leader approach in redefining "Quality" in its services, and has documented this by receiving ISO 9001:2008 quality certificate.

EMAY, having completed all its undertaken projects successfully, on time and by earning the respect of its employers until today; aims to provide services in large and important projects, to continue its success by creating satisfaction and added value to the project stakeholders, to successfully represent its country abroad and to contribute to the development of Turkey, as it has done until today.

FIELDS of ACTIVITY

✓ Transportation

- ◆ Roads
- ◆ Rail Systems
- ◆ Urban Public Transportation Systems
- ◆ Bridges and Viaducts
- ◆ Tunnels
- ◆ Airports
- ◆ Ports and Marine Structures

✓ Buildings

- ◆ Residential, Commerce, Sports & Entertainment, Education, Health care, Government, Industry, Transportation

✓ Water & Environment

- ◆ Hydraulic Structures
- ◆ Water Supply, Storage, Distribution and Treatment Systems
- ◆ Wastewater Disposal and Treatment Systems
- ◆ Environmental Protection and Restoration System
- ◆ Waste Management Systems
- ◆ Spatial Planning / Urban Development

SERVICES

✓ Architectural / Engineering Services

- ◆ Architecture
- ◆ Urban and Rural Planning
- ◆ Civil Engineering
 - Structural Engineering
 - Seismic Engineering
 - Geotechnical Engineering
 - Transportation / Traffic Engineering
 - Hydraulic Engineering
- ◆ Geomatics Engineering
 - Surveying and Mapping
 - Geographic Information Systems (GIS)
- ◆ Environmental Engineering
- ◆ Electrical and Mechanical Engineering
- ◆ Independent Checking Engineer / Design Certification

✓ Project Planning and Preparation Services

- ◆ Feasibility Studies (Technical, Socio-Economical, Financial)
- ◆ Master Plans
- ◆ Environmental Impact Assessment Studies
- ◆ Transport and Traffic Planning and Design
- ◆ Architectural and Engineering Design
 - Conceptual & Preliminary Design
 - Detailed & Application Design
- ◆ Technical Specifications and Tender Documentation
- ◆ Due Diligence, Inspection, Analysis and Assessment

✓ Project Implementation Services

- ◆ Management Services
 - Design & Interface Management
 - Project Management
 - Construction and Site Supervision and Management
- ◆ Testing, Commissioning, Operations and Maintenance, Training
